

## **Erath Pasture to Packer Program**

It is time to complete applications for the 2021-2022 Pasture to Packer Program. Please submit application, supplemental info and project cost estimator to Lone Star Ag Credit located at 101 East Road Stephenville by September 3, 2021.

What is the Erath Pasture to Packer Program? The program, offered through Texas A&M AgriLife Extension Service in Erath County and Erath 4-H, is designed to teach youth the economic and production facets of an agricultural project, while also teaching them valuable leadership skills. Each participant will submit an application in September and also complete a face to face orientation. After acceptance to the program, the participants begin working with one of the sponsors, Lone Star Ag Credit, to request their loan for their animal cost and feed. During the loan application process and interview, they learn the proper way to fill out a loan application, work thru a projected cash flow, and understand the record book requirements.

In October, participants select steers from a pre-sorted group of commercial calves weighing between 750-800 pounds. After selection, they learn about chute-side manner, vaccination protocols, animal health and diseases, and participate in processing their calf before taking it home to begin the feeding process.

The participants will have their calves on feed for 175 days. During this process, the youth will have to keep records on feed performance and cost associated with the project. Each participant will have a check-in and weigh-in on the project at various times throughout the feeding period. The cattle are cared for and records are kept, just as a commercial producer would do. During the feeding period, the group will participate in several educational seminars focusing on marketing, nutrition, animal husbandry and meat science.

We have partnered with Tarleton meat department to harvest the cattle in March 2022. The youth will bring their animals together for a live evaluation at the conclusion of the feeding program. After the cattle are harvested, the participants will learn about carcass quality, grading and cuts of meat. They will then be responsible for marketing their carcass. This program gives the participants full responsibility from the purchasing decision to the marketing. The proceeds of the carcass sales will be used to pay back the loan.

In April, there will be an awards banquet where the youth, sponsors, and volunteers are recognized. In addition, special awards will be presented, as well as the results of the feeding program. This program is not designed to profit the child a great deal in a monetary sense. It is designed to give them a very valuable hands-on, learning experience---from interviews and bank visits, to daily care of their cattle, combined with the marketing side and industry knowledge of where and how our food is processed.

If you have any questions, please contact the Erath County Extension Office at 254-965-1460.

2021- 2022 Pasture to Packer Supplemental Information

Due: **September 3, 2021**

Dear Erath County Pasture to Packer Participant:

I am very excited about your interest in participating in the Erath County Pasture to Packer Program. As a sponsor, Lone Star is also excited about our opportunity to support the program and we certainly hope that you will find this to be a valuable and educational experience over the next 8 months.

In this folder you will find your loan application which will need to be completed and returned to our local office by September 3, 2021. Please note in addition to your signature, we are asking for a parent or sponsor signature on the loan documents as well. Then on the 22nd of September we will be meeting together as a group to sign loan documents and to go over the financial aspects of your project. Whoever cosigns on your loan will need to be present on the 22nd as well.

The loans will set at **\$2,760** per participant and will be due in full by May 1, 2022. Based on the current market, this should allow ample funds to purchase the steer and to provide the needed money for feed as well. I encourage each of you to spend some time researching the current market price for a 800 pound steer as well as anticipated costs of feed prior to our meeting. Together, we will do a projected income statement and a comprehensive breakeven analysis. It is very important with any investment to project your expenses up front and to know what price you need to receive in the end to meet your expectations.

Again, we want to welcome you to the program and we are certainly looking forward to providing each of you a loan for your project.

If you have any questions, please give me a call (254-965-3612) or email me at [gerrit.schouten@lonestaragcredit.com](mailto:gerrit.schouten@lonestaragcredit.com).

Sincerely,

A handwritten signature in blue ink, appearing to read "Gerrit Schouten".

Gerrit Schouten
